

AMENDMENT TO THE CLAIMS SHOWING CHANGES

IN THE CLAIMS:

Claim 5 is amended as follows:

5. (Amended) A backing plate for abrasive flap wheels, said backing plate comprising

an inner part formed with a hub having a location hole provided with an internal thread for engaging a threaded shaft of a driving machine, and

an outer [part] flange having a surface for adhesively bonding an abrasive flap wheel onto said backing plate, said outer flange being formed integrally with said hub.
